[EXTERNAL EMAIL]

Monday, July 4, 2022

Noon, 12:00pm

Dear North Shore School District 112 Staff,

I am writing with a heavy heart and shock, and sadness -- as you may know, there was/is an active shooter situation in Highland Park today at the parade. Reports indicate that there were nine people shot -- local police, state police, and many first responders are on site.

I'm writing to let you know I am thinking of each and every one of you. I'm praying you are all safe.

Members of the cabinet and I are working with local school personnel to work through communications, response, etc.

While I don't have any more information than is what is being reported to local news sources and social media, I am deeply concerned about the mere presence of an active shooter in Highland Park, victims hurt - or worse - and the implications for us all as a community, school district, and as a people.

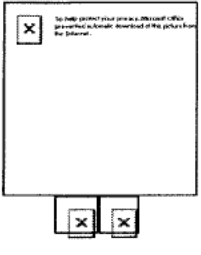

Please stay out of Highland Park today and please stay tuned for updates.

Reach out if you need any support and we'll plan to send an "all" communication later today or this evening.

With sadness in my heart - but eternal optimism,

Mike

I'm very sorry to reach out under these circumstances. Are you the POC for City officials? Can you assist with interview requests as we cover the shooting.

Can we request an interview with Mayor Nancy Rotering? Police Chief Lou Jogmen? Please advise if you can assist or if there's another person handling police.

The Situation Room is live 4-6 CT / 5-7 ET. Brianna Keilar is in for Wolf.

We could do an interview virtually (CISCO or SKYPE) or could consider phone interview.

Hi Nancy! Looks like you have a mess on your hands from this shooting today. I'm sure you'll say "guns need to be illegal" as most liberals would say. Look at how well that working for guns in Chicago that are illegal. Maybe people should take self accountability!! Like you.

Coming from a mayor that touts anti American values with vaccine mandates for businesses. You're turning highland park into a shit show and I suggest you resign. Can't keep the city safe and your good at division of the people.

My heart goes out to the families you failed to protect in this event. You now have blood on your hands. I don't know how you sleep at night knowing your poor leadership had lead to death of innocent people.

Hello, my name is Kenneth Black and I am the owner of a local business in Highland Park.

The covid passport that's being implemented is like modern day Nazi. Many residents are obviously Jewish and wonder if they remember the yellow stars and being asked for papers in the streets of Germany.
It's rather sad to know such a great town like Highland Park is politically geared to implement such unAmerican practices.

Maybe you should have taken a study of your own.
How many people vaccinated got sick with covid that you know?? I bet a lot!
The "vaccine" isn't stopping the spread. Covid positive everywhere.

Dr Robert Malone, INVENTOR of the MRNA vaccines has something interesting for all to hear.

All you have to do is a little digging past the mass formation psychosis brainwashing currently overcoming the people.

Robert Malone warns of grave consequences of mass vaccination.

Viral Immune Escape.

What do you know about a mRNA vaccine?
Do you know what it does to your body?
Do you know what's in it?
Do you know how it could affect humanity in 10 years?
Did you know that natural immunity is actually better protection than the "vaccine"

Listen to the expert, Dr Malone, in vaccines development and research, who better than the inventor??

<https://www.rwmalonemd.com/>

I strongly, strongly, urge you to reconsider your stance before you kill small businesses in Highland Park that are barely making it now. Not only the businesses; but the segregation you'll cause. The trauma on the kids.

The Supreme Court is holding the hearing for Vaccine Mandates.
I would hope, if the mandate is struck down you rescind your mandate.

This isn't CRAZY Lori Lightfoot Chicago.

Remember "TWO WEEKS TO STOP THE SPREAD"
Well. Almost 2 years, and we are worse off by far now with vaccines than we are the entire year before without vaccines.

The vaccine is the bio weapon.

Variants emerge with every booster.

Thank you if you read this. Hope you do some digging of your own.

Chief Jogman,

I am so sorry about the shooting incident today and wanted to ensure you had resources for your officers.

You may already have someone who does your debriefings and check-ins but I wanted to offer my services if needed and you do not. I am a former Chicago Police officer and now a psychologist. I am coming in tomorrow at 10 to do a debrief for the Highland Park District employees, let us know if we can help or be of assistance.

We do group and individual debriefs if you or any of your officers need it.

I have included some info that you may find useful to help in this situation.

If you do not need any services, that is fine, I just wanted to ensure you had someone knowledgeable. My heart is with you all.

Thanks for serving and protecting.

Police/Fire Department Protocol for Critical Incidents

Pre-Event Protocol:

- Have a policy and procedure for handling critical incidents.
- Ensure your hospital(s) and ER staff are aware of the need for a medical check after an officer involved shooting and what this encompasses.
- Discuss an exception to the procedure of taking all “victims” if it is an offender and a first responder to the same hospital. Supervisors may need to ask if this can be written into Fire Department/EMS protocol as generally they are required to take the patient to the nearest hospital.
- Define what is a critical incident but include subjective incidents as well. Consider critical incidents do not only include fatalities or shootings. It would be common for many officers to have more difficulties handling a severe child abuse situation than a fatal car accident.
- High clinical risk of psychological trauma includes but is not limited to suicide of a co worker, any incident that reminds an officer that they are “lucky” to be alive, any victim that is a first responder, prolonged exposure to death and dying, any serious injury, sex crime or death to a child, mass casualties, serious line-of-duty injury, police involved shootings, when an officer is unable to protect or save a victim, organizational or personal betrayal, or any situation that leaves officers feeling completely helpless.
- All first responders and supervisors should be well-versed in what are common stress reactions after a critical incident as well as when to get further help for themselves or their co-workers. A handout should be created, and all staff given a copy and should be accessible to all.
- First responders and supervisors should be well-versed in what are risk factors and protective factors for developing post-traumatic stress disorder.
- Department responsibilities include finding mental health professionals (MHP) who are experienced in first responder culture and trauma. Utilizing therapists who practice trauma specific therapies which include Cognitive Behavioral Therapy (CBT), Cognitive Processing therapy (CPT), Eye Movement Desensitization and Reprocessing (EMDR), and Exposure therapies. A list of MHP should be given to officers after a critical incident.

- Departments should use or develop peer support members within their department or county. There are also free 24/7 resources for first responders such as Serve and Protect/ Safe Call Now 1-615-373-8000 or 1-866 COP-2 COP.
- Departments should develop a confidential and timely roster for family notifications of critical incidents that occurred to department members. Department members should be able to choose three staff who might inform their family. A trained peer support, mental health professional or clergy should accompany that member.

At the Scene:

- Ensure the member involved in a critical incident is assigned a companion first responder that is not involved in the critical incident for emotional support.
- Ensure any “involved members” are also considered for emotional support as well.
- Transport the involved member from the scene as soon as possible by the companion member to restore safety and to secure any weapons, gun belt, badge, equipment, etc.
- When possible, ensure the member is sent to a different hospital than the offenders. Also, ensure all involved members are sent to the same hospital, when possible.
- For law enforcement, ensure the hospital staff and doctors are complying and aware of the officer’s needs and state law of needing a urine or blood sample after an officer involved shooting. ER staff should also be aware of the need to preserve evidence and that EMTs will likely need to photograph injuries, uniform, etc.
- The companion member should accompany the member to the hospital and be there to provide basic assistance, water, phone calls, etc.
- Do not isolate the member. Allow members involved in possible crime scenes to talk with a clergy, MHP, and/or peer support officers with whom they will have privileged communication.
- Ensure those who are investigating and helping know who was involved in the incident. A list should be generated by the on-scene members. No one should be forgotten.
- For law enforcement, replacement weapon should be given as soon as possible. Further, officers’ personal gun should be returned as soon as possible.
- Involved members should be allowed to put on civilian clothes as soon as possible.
- Involved members should be allowed to contact family members as soon as possible. Members should be reminded to share their health status and needs.
- Supervisors and other members should choose their words carefully as they may be long remembered by the involved member. Supervisors should concentrate on the human survival first then policy.
- All members involved with the critical incident and family members should be given written information discussing normal stress reactions and coping strategies and provided a mental health professional list.
- All members involved, and family members should attempt to avoid media and social media. Department members and family members should be reminded not to share negative media attention or rumors as this will not be conducive to recovery.

After the critical incident:

- Ensure all involved department members participate in an individual or group debrief so they understand common reactions to a critical incident. We encourage these to be mandatory, so officers get the information but also do not feel weak or feel peer pressure. Remember each officer has the option to speak or not at group debriefs.
- Allow the involved members(s) some time before making a formal statement, when possible. Department member's memories will likely be better when they have two sleep cycles of rest.
- The member should see a first responder psychologist or mental health professional within 72 hours to 7 days of the incident, who is experienced in return to duty therapy sessions who will normalize the trauma reactions. The first responder psychologist or MHP should write a brief letter of psychological clearance to the department. It is also common that an officer may need additional time to return to work. Most members will recover quickly but some may need 1-3 therapy sessions before returning to work. A few members may require more time as they could develop acute stress disorder or develop post-traumatic stress disorder.
- Supervisors and members should be aware of acute and post-traumatic stress disorder symptoms so they can look for signs amongst department members involved in a critical incident as well as support any member who develops this disorder. PTSD is a brain injury that only occurs from an external life-threatening event and is not a weakness in character. First Responders are one of the four groups of people who are most susceptible to developing this disorder due to the amount of trauma they are exposed.
- The member(s) involved should have a minimum mandatory time off prior to coming back to work and may need respite from work or modified hours or duties for a period of time. This should be a minimum of 3 days as shock can still be present up to 72 hours. Members should return to work once they are cleared from an MHP.
- Members should be given additional assistance by a peer support member, MHP, or person of their choice if an officer they need to re-quality with their weapon or perform equipment duties. They should also be allowed to qualify alone or with the minimum amount of people present.
- Allow members involved to talk to peers who have been through similar incidents. This should not be forced.
- Provide post-incident group intervention, debriefing, individual therapy and/or peer support opportunities for all involved members.
- High ranking officials should talk to involved members and concentrate on human concern first rather than legal and department rules. Most members will understand there are policies that need to be followed but they want to feel like they are a valuable person not a number.
- All supervisors should ensure information disseminated is accurate and actively correct inaccurate information. This can also be accomplished at roll calls.
- Supervisors and members should be careful of critical discussion of tactics after a critical incident as the involved members were likely doing the best they could in the situation.

Remember, it is always easier after an incident to think about the incident with clarity and options. When discussing, focus on 'lessons learned' rather than faulting the officer(s) tactics and decision making. (Remember, the members(s) are doing this themselves and do not need others to point out their mistakes, if there were any.)

- One supervisor should maintain regular communication with the member while any investigation is pending and throughout until the close of the case reminding them of protocol, court dates, rights, etc. Weekly communication at minimum.
- A mandatory post-critical incident intervention by a MHP should occur within 72 hours of the event (when possible) and at 1 month. The first intervention should include psychoeducation about trauma, coping skills, and normalizing their experience. The one-month post-critical incident should occur by a MHP for follow up. Any mandatory sessions should be confidential other than attendance to the session.
- The International Chiefs of Police and IAFF recommend members involved in a critical incident have ongoing contact with a MHP at minimum at 1 month, 4 months, and 1-year post-incident for follow up.
- Supervisors should ask your involved members(s) if there would be anything that they would suggest could be different or helpful to other members who may go through a critical incident.
- Supervisors and officers should work at supporting the member through texts, phone calls, emails, and visits to the home. However, ask the involved member how often they would like to receive this as they can often be overwhelmed by support or visitors. Those who reach out should not personalize a response from the involved member(s) as it is common after a trauma to want to isolate.

If police or fire department members have any questions or would like help creating their critical incident procedure, please contact Dr. Carrie Steiner or the First Responders Wellness Center at 1-630-909-9094 or Dr.Steiner@firstresponderswellnesscenter.com

Hi Nancy! Looks like you have a mess on your hands from this shooting today. I'm sure you'll say "guns need to be illegal" as most liberals would say. Look at how well that working for guns in Chicago that are illegal. Maybe people should take self accountability!! Like you.

Coming from a mayor that touts anti American values with vaccine mandates for businesses. You're turning highland park into a shit show and I suggest you resign. Can't keep the city safe and your good at division of the people.

My heart goes out to the families you failed to protect in this event. You now have blood on your hands. I don't know how you sleep at night knowing your poor leadership had lead to death of innocent people.

Hello, my name is Kenneth Black and I am the owner of a local business in Highland Park.

The covid passport that's being implemented is like modern day Nazi. Many residents are obviously Jewish and wonder if they remember the yellow stars and being asked for papers in the streets of Germany.

It's rather sad to know such a great town like Highland Park is politically geared to implement such unAmerican practices.

Maybe you should have taken a study of your own.

How many people vaccinated got sick with covid that you know?? I bet a lot!

The "vaccine" isn't stopping the spread. Covid positive everywhere.

Dr Robert Malone, INVENTOR of the MRNA vaccines has something interesting for all to hear.

All you have to do is a little digging past the mass formation psychosis brainwashing currently overcoming the people.

Robert Malone warns of grave consequences of mass vaccination.

Viral Immune Escape.

What do you know about a mRNA vaccine?

Do you know what it does to your body?

Do you know what's in it?

Do you know how it could affect humanity in 10 years?

Did you know that natural immunity is actually better protection than the "vaccine"

Listen to the expert, Dr Malone, in vaccines development and research, who better than the inventor??

<https://www.rwmalonemd.com/>

I strongly, strongly, urge you to reconsider your stance before you kill small businesses in Highland Park that are barely making it

now. Not only the businesses; but the segregation you'll cause. The trauma on the kids.

The Supreme Court is holding the hearing for Vaccine Mandates. I would hope, if the mandate is struck down you rescind your mandate.

This isn't CRAZY Lori Lightfoot Chicago.

Remember "TWO WEEKS TO STOP THE SPREAD"
Well. Almost 2 years, and we are worse off by far now with vaccines then we are the entire year before without vaccines.

The vaccine is the bio weapon.

Variants emerge with every booster.

Thank you if you read this. Hope you do some digging of your own.

Hello Everyone!!

What a beautiful day! Hopefully, July 4 will be as nice, which is what this email is really about. :)

We hope as many of you - and your family members and friends - will join us as walkers in the Highland Park 4th of July parade (which is on Monday, July 4). A few people can also ride in our parade car.

We need your help passing out our giveaways, but even more we need a strong showing in the parade!

We have HPCF t-shirts of various sizes you can wear (though you are welcome to wear your own), and will have cold water and treats to enjoy before the parade starts.

You will need to be at our location in the downtown HP Metra Station by **9:30 AM** and we should be done by 10:30-10:45. Further details about exactly where we will gather to line up, take photos, etc., will be sent once we receive them from the City.

Please let Terri (terri@hpcf.org) know if you can join us and how many people you will be bringing!

Thank you for your help in making this a fun and successful awareness raising event for the HPCF! We hope to hear from you soon!

PTSD Basics

By Welby O'Brien

PTSD Is:

Post-Traumatic Stress Disorder can affect anyone, and it results from exposure to an experience that is horrific or life threatening. The whole person gets locked into emergency mode (fight or flight or freeze survival!) and will always be permanently programmed in that emergency mode at some level for the rest of their lives. 24/7 they live as if the original trauma or an impending crisis could occur at any moment. It totally overwhelms their ability to cope so when something triggers them back into survival mode, they have no reserve with which to handle it.

PTSD affects millions just in the U.S. alone, along with all those who love them and care about them.

Because the trauma can impact them on every level (physically, emotionally, mentally and spiritually), the manifestations are quite extensive. Some typical symptoms may include flashbacks, intrusive thoughts of the trauma, avoidance, numbing, putting up walls, withdrawing, hypervigilance, irritability, easily startled, memory blocks, sudden bursts of anger or other emotions, difficulty sleeping, nightmares, fear, depression, anxiety, substance abuse and other addictive behaviors, difficulty holding a job, relationship problems, and unfortunately sometimes even suicide. (See www.LoveOurVets.org for more information.) They are people who are reacting normally to an abnormal experience.

PTSD is NOT:

Post-Traumatic Stress Disorder is not a chosen situation or a temporary condition, nor is it 100% curable. People who struggle with it are not crazy, weak, failures, bad people, nor are they without help and hope. They can learn to thrive again!

PLEASE DON'T:

Don't pity them.
Don't fear or avoid them.
Don't try to "fix" them.
Don't judge.
Don't assume you know what are going through.
Do NOT say:
Aren't you over it yet?
You are crazy.
Just get over it.
It's all in your head.
Just be stronger.
I have a total cure for you.
At least you weren't wounded
I had that but I got over it.
What you really need to do is
You're on your own now.
Pull yourself together.
It's all in the past.
Suck it up.
Move on.

- About 1 in 4 police officers have contemplated suicide at one point during their career.
- In 2017 more police officers died from suicide than they did in the line of duty.
- Police officers report PTSD at a much higher rate than any other career outside of the military.

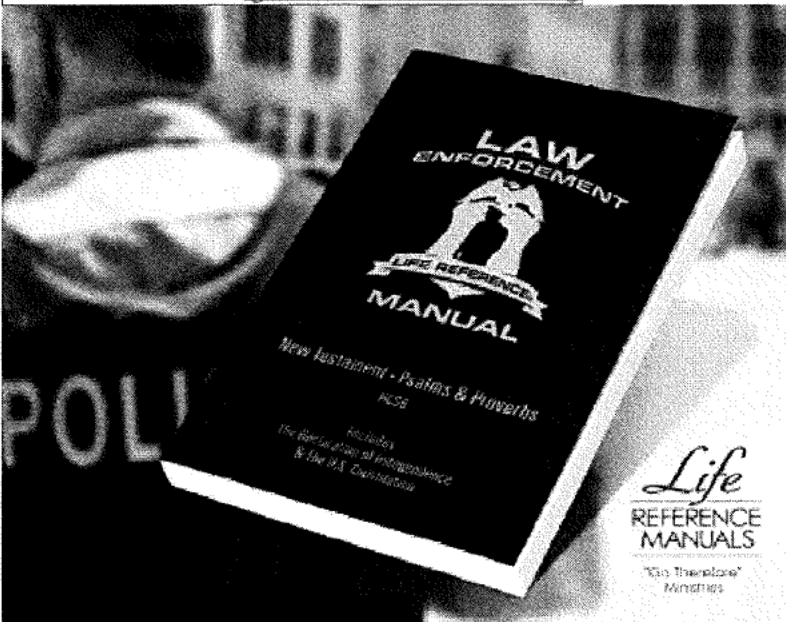

Since the nature of their job is so stressful, there is an increased likelihood of a police officer being diagnosed with the symptoms related to PTSD. It is estimated that almost 20 percent of police officers suffer from PTSD.

There is a strong correlation between being a police officer and PTSD.

PTSD Is:

Post-Traumatic Stress Disorder can affect anyone, and it results from exposure to an experience that is horrific or life threatening. The whole person gets locked into emergency mode (fight or flight or freeze survival!) and will always be permanently programmed in that emergency mode at some level for the rest of their lives. 24/7 they live as if the original trauma or an impending crisis could occur at any moment. PTSD affects millions just in the U.S. alone, along with all those who love them and care about them.

Because the trauma can impact them on every level (physically, emotionally, mentally and spiritually), the manifestations are quite extensive. Some typical symptoms may include flashbacks, intrusive thoughts of the trauma, avoidance, numbing, putting up walls, withdrawing, hypervigilance, irritability, easily startled, memory blocks, sudden bursts of anger or other emotions, difficulty sleeping, nightmares, fear, depression, anxiety, substance abuse and other addictive behaviors, difficulty holding a job, relationship problems, and unfortunately sometimes even suicide. - About 1 in 4 police officers have contemplated suicide at one point during their career.
- In 2017 more police officers died from suicide than they did in the line of duty.
- Police officers report PTSD at a much higher rate than any other career outside of the military.

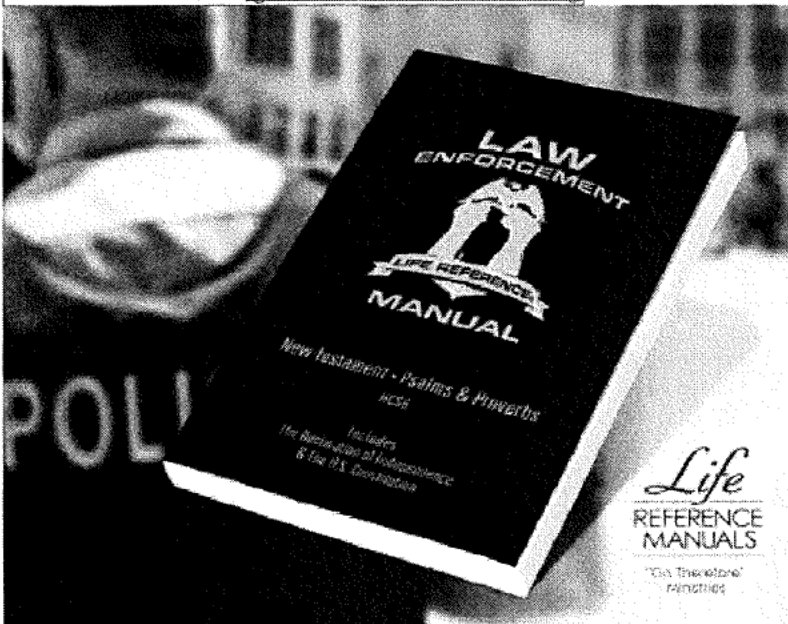

Since the nature of their job is so stressful, there is an increased likelihood of a police officer being diagnosed with the symptoms related to PTSD. It is estimated that almost 20 percent of police officers suffer from PTSD.

There is a strong correlation between being a police officer and PTSD.

Hello Everyone!!

What a beautiful day! Hopefully, July 4 will be as nice, which is what this email is really about. :)

We hope as many of you - and your family members and friends - will join us as walkers in the Highland Park 4th of July parade (which is on Monday, July 4). A few people can also ride in our parade car.

We need your help passing out our giveaways, but even more we need a strong showing in the parade!

We have HPCF t-shirts of various sizes you can wear (though you are welcome to wear your own), and will have cold water and treats to enjoy before the parade starts.

You will need to be at our location in the downtown HP Metra Station by **9:30 AM** and we should be done by 10:30-10:45. Further details about exactly where we will gather to line up, take photos, etc., will be sent once we receive them from the City.

Please let Terri (terri@hpcf.org) know if you can join us and how many people you will be bringing!

Thank you for your help in making this a fun and successful awareness raising event for the HPCF! We hope to hear from you soon!

Hi Amanda,

I'm very sorry to reach out under these circumstances. Are you the POC for City officials? Can you assist with interview requests as we cover the shooting.

Can we request an interview with Mayor Nancy Rotering? Police Chief Lou Jogmen? Please advise if you can assist or if there's another person handling police.

The Situation Room is live 4-6 CT / 5-7 ET. Brianna Keilar is in for Wolf.

We could do an interview virtually (CISCO or SKYPE) or could consider phone interview.

This morning at 10:10 a.m. our community was terrorized by an act of violence that has shaken us to our core. Our hearts go out to the families of the victims during this devastating time. On a day that we came together to celebrate community and freedom -- we are instead mourning the tragic loss of life and struggling with the terror that was brought upon us.

While we have all felt the burden of this terrible act -- I want to pause to thank the first responders who ran towards danger to render aid during this active shooter situation. We saw individuals who responded selflessly and put themselves at risk to save others.

At this point we know that five people have lost their lives, and we are grieving for them and their families. Another 16 have been transported to the hospital.

Multiple agencies including the FBI and State Police are working with our local authorities and the Governor has offered his full support.

What we know at this time is that this is an active situation and we urge everyone to remain indoors and be on high alert, but remain calm.

Please contact your loved ones and ensure that they are safe and let them know that you are safe as well.

The situation is evolving rapidly and we will continue to update you as we gain information and stabilize the situation.

Hi,

I don't know who to share this with but on Saturday the 3rd maybe between 10:45 and 11:15am I was driving down central and saw what felt like a VERY out of place pickup truck with MAGA stickers parked right outside Uncle Dans at the corner. Live in HP so know the demographics and what feels normal and what doesn't.

If you have surveillance tape, that may be worth checking.

Hi,

I don't know who to share this with but on Saturday the 3rd maybe between 10:45 and 11:15am I was driving down central and saw what felt like a VERY out of place pickup truck with MAGA stickers parked right outside Uncle Dans at the corner. Live in HP so know the demographics and what feels normal and what doesn't.

If you have surveillance tape, that may be worth checking.

Hi,

Hope all is well. I'm emailing to see if Mayor Nancy Rotering can join us on our third hour of *Good Morning America*, GMA3: What You Need To Know, for a 3-5 minute interview with Amy Robach and TJ Holmes. We record at 9:40 am EST via Zoom, or we can arrange a studio.

We interview leaders from across the country--Senators, Representatives, Mayors, health industry experts, White House officials, and half of our nation's Governors and would like to include Mayor Nancy Rotering to discuss today's shooting on tomorrow's show.

We have had multiple White House Officials join us, most recently Secretary of Labor Marty Walsh, Secretary of Education Miguel Cardona, and Secretary of Energy Jennifer Granholm along with members of Congress. We have had 38 Governors on our program including California Governor Newsom, Rhode Island Governor McKee, and New Jersey Governor Murphy.

We are currently the fastest-growing show in daytime television and our program was nominated for the 2021 and 2022 Daytime Emmy. We are happy to accommodate any requests you may have. Please feel free to send any questions or concerns my way. Thank you and looking forward to your response.

All the best,
Rahma

Hi,

I don't know who to share this with but on Saturday the 3rd maybe between 10:45 and 11:15am I was driving down central and saw what felt like a VERY out of place pickup truck with MAGA stickers parked right outside Uncle Dans at the corner. Live in HP so know the demographics and what feels normal and what doesn't.

If you have surveillance tape, that may be worth checking.

Hi Amanda,

I'm a producer for MSNBC's Chris Hayes. Chris is hosting the 6p to 8p ET (5p to 7p CST) hours tonight. We are watching this horrible shooting in Highland Park. Would the Mayor be available to join Chris tonight to talk about what happened? This would be for a LIVE interview for about six or seven minutes during these two hours. We could accommodate her on FaceTime, Skype, or Zoom. We could also take a phone interview with her if that's easier.

Thanks Amanda!

Regards,
Sheara

As many of you know, there was a horrible shooting today at Highland Park's 4th of July parade. I am deeply shocked and upset.

At this point we have heard there were multiple victims. As information becomes available we will better know how we as a Foundation can offer help to the victims and our community.

All members who participated with the HPCF in the parade are safe.

Sending love to all of you.
