

## City of Highland Park online permitting

Online permitting allows people to view information regarding building permits, including the results of inspections. It also allows customers to schedule inspections. Online permitting is available at the following link:

<https://www.cityhpil.com/webapps>

From that page, then choose **citizen services**.

Next, choose **permits & inspections**.

You will see two choices **permit inquiry** and **inspection requests**. Choosing **permit inquiry** allows access to viewing information on the permit and scheduling inspections. Choosing **inspection requests** is a shortcut to the inspection scheduling page.

Important note: When entering an address to call up a permit, it is not necessary to enter the whole street name. You may enter the street number and the first few letters of the street name followed by an asterisk, then hit search. For example, entering "1150 Ha\*" would call up the permits for 1150 Half Day Road.

If you wish to log in:

Choose **Registered Users** or **New User**.

Follow the prompts to enter or create your username and password.

If you have questions regarding online permitting, please call Mike Croak, Plan Examiner/Inspector, at 847-926-1169.
