MCGOVERN HOUSE CONSTRUCTION

Construction of McGovern House, located at McGovern Street and Central Avenue (former Clark gas station) has begun. For more information visit:

CENTRAL AVENUE TREE REPLACEMENT

To continue Best Forestry Practices and to maintain a healthy consistent look of our trees, the City will remove and replace the Linden trees within 16 existing planters in the Central Business District. The Linden trees have been declining for several years due to reduced rooting area, watering challenges, excavation for annual flower planting and reflective heat from surrounding impervious surfaces.

Two Linden trees will be planted in each of the 16 planters for a total of 32 new trees. The new trees will provide increased visibility to store fronts as well as open up the block. Removal and replacement will occur on the south side of Central Ave. between Green Bay Rd. and Second St., and on the north side of Central Ave. between Second St. and First St.

In spring of 2016, 16 trees will be removed and replaced moving block by block with 8 trees removed per block. This system will preserve the uniform look of the block. Trees will be removed in early spring and replanted in late spring.

In 2017, the City will continue with tree replacement on the opposite sides of the street.

For additional information, please contact Joe O'Neill, City Forester at 847-926-1604.

DEERFIELD ROAD CONSTRUCTION

BACKGROUND:

The Deerfield Road Reconstruction Project commenced on February 1. The overall scope of work is water main and storm sewer replacement within the Village of Deerfield, sanitary sewer point repairs and lining, traffic signal replacement, full reconstruction of Deerfield Road between the Metra underpass and the eastern limit of the Village of Deerfield, sidewalk relocation along the south side of Deerfield Road, and includes resurfacing of Deerfield Road through the City of Highland Park to US Route 41, as well as bridge deck repairs on 5 bridges within the project limits. The majority of the roadwork will be completed in 2016, with some work spilling over into the spring of 2017.

UPDATE:

On Monday, April 25, the transition into the new configuration was completed from Waukegan Road through Richfield Avenue in Highland Park. This configuration will be in place through mid-July. Shifting traffic to the north lanes now allows crews to perform underground work and pavement reconstruction of the southern lanes.

Left turn restrictions from Deerfield Road onto adjacent streets at non-signalized intersections during peak traffic hours will remain in place until further notice. Left turn restrictions exclude Brand Lane and Brierhill Road in Deerfield, and Villas Court, Evergreen Way, Ring Court and Piccadilly Road in Highland Park. During pavement reconstruction and sidewalk replacement, access to side streets and private driveways will be impacted.

For more information on this project visit <http://www.deerfieldroad.com>.

This project is led by the Village of Deerfield. Project partners include the City of Highland Park, the Lake County Division of Transportation, and the Illinois Department of Transportation.

Should you have any questions about the project, please contact City Engineer Emmanuel Gomez at (847) 926-1145 or egomez@cityhpil.com
