

## Bucky's Construction Update - 10/28/2015

- Gas pumps have been installed and wired.
- Landscaping and sod are nearly complete.
- Car wash is about 80% complete.
- Interior is about 95% complete.
- Food service equipment is scheduled to be delivered the week of November 7th.
- The Lake County Health Department has an inspection scheduled the week of November 14th.

On Monday, October 24, 2016, the City's Liquor Control Commission which consists of Mayor Rotering as Chair, and Councilmen Blumberg and Frank serving as commissioners, considered Buchanan Energy's application for an amendment to the City's Municipal Code to permit packaged liquor sales at fueling facilities. Buchanan Energy was represented by Mr. Richard McMahon, attorney. After much discussion, the Commission unanimously agreed that the Code not be amended and the Code to remain in its current form.

Thank you to all the residents who contacted the City Council to express their feedback and concern pertaining to the sale of alcohol at Bucky's and any other fueling facility.
