Re: Buchanan Energy, LLC  
Highland Park, IL - 1333 Half Day Road  
Kurtz Project No. 12003

In September I wrote to you regarding a public hearing regarding the Mobil station on the northeast corner of Route 22 and US 41. That hearing was originally scheduled for October 16, 2012.

This is to inform you that we have asked the City to continue this case until December 4, 2012. We are requesting this continuance in order to make some minor changes to our proposal. These changes should not impact our neighbors.

I am still happy to talk with you regarding any questions you might have regarding the improvements we are intending to make. Please call me at the office or my home (I'm in the phone book) to discuss the project further.

Sincerely,

**KURTZ ASSOCIATES ARCHITECTS**
